

# FG17-450/750 V

## Reaction to Fire CPR: C<sub>ca</sub>-s1b,d1,a1

Single core flexible power cable with G17 rubber insulation, resistant to fire propagation, having low emission of smoke and toxic and corrosive gases when exposed to fire.

### Rated voltage

U<sub>0</sub>/U 450/750 V

### Standards

CEI 20-38, CEI Unel 35310, CEI 20-11, EN IEC 60228, EN IEC 60332-1-2, EN IEC 60754-2, EN 50267-2-1, EN IEC 61034-2, EN 50575:2014+A1:2016

### Regulation Construction Products

305/2011 EU.

### European directives

2014/35/UE (LVD) - 2011/65/CE e 2015/863/EU (RoHS).

### Conductor

Flexible annealed plain copper, class 5 (EN IEC 60228)

### Insulation

Rubber compound of type G17, having low emission of smoke and toxic and corrosive gases when exposed to fire. Insulation colour:

blue, dark blue, light blue, black, brown, grey, green/yellow, red, white, turquoise, violet, orange, pink.

### Marking

Continuous marking on the insulation: « LOMBARDA noSmoke ECOGAMMA FG17-450/750 V nominal cross section mm<sup>2</sup> IEMMEQU EFP anno di fabbricazione Made in Italy Cca-s1b,d1,a1 ».

### Guidance for Use

For installation where high presence of people is foreseen and a low level of emission of smoke and corrosive gases are required in case of fire or burning. Installation in surface mounted or embedded conduits, or similar closed systems; suitable for fixed protected installation in, or on, lighting or control gear for voltages up to 1000 V a.c. or, up to 750 V d.c. to earth. Particular suitable for installation in bunches (according to the relative test conditions).

FG17-450/750 V cables are suitable for general applications in construction work subject to fire reaction requirements; for bundle installations with high fire risks, having fire reaction class Cca-s1b,d1,a1.

Further instructions and guidance for use are given in the EN 50565 and CEI 20-40 standards..

According to CPR EN 50399

Minimum internal bending radii 4 ÷ 6 times the overall diameter

EN IEC 60332-1-2

low emission of smoke LS0H

Minimum installation and handling temp -15 °C

Low emission toxic and corrosive gas LS0H

Maximum operating temperature on the conductor

Lead Free Ecogamma

Maximum short circuit temperature (max 5 sec)

According to RoHS

Minimum usage temperature -30 °C

Maximum tensile stress 1,5 kg/mm<sup>2</sup>
