- SUPPLIER

**SUBJECT: CORONAVIRUS EMERGENCY - Update 10/03/2020**

Following the entry into force of the new directives issued by the Italian Government regarding the measures to contain the COVID-19 contagion, ICEL informs its Customers and Suppliers that these new regulations do not determine either any stop in the production activities or transport and movement of goods throughout the national territory or to and from the European territory.

ICEL complies with the indications provided by the Ministry of Health and the competent Regional Authorities and has strengthened the measures already in force to reduce the risk of Coronavirus contagion and safeguard the health of its employees.

Our offices and plants continue to be operational, therefore we confirm that our production and commercial activities continue without any interruption. The receipt of incoming goods and the deliveries of our products continue to be carried out according to the usual methods and timescales.

The situation is constantly monitored and any changes, updates and developments will be promptly communicated.

Our company is at your complete disposal to provide you with any further information.

Sincerely.

**I.C.E.L. S.C.p.A.**
