

SUBJECT: CONFLICT MINERALS STATEMENT

I.C.E.L. S.C.p.A. is not a publicly-traded company based in the U.S.A. and so is not required to comply with the due diligence and reporting obligations required by the legislation known as the Dodd-Frank Wall Street Reform and Consumer Protection Act.

However, in order to assist our customer, we are voluntarily attempting to determine the use and source of any metals intentionally added to our cables which are designated as conflict minerals by the Dodd-Frank Act.

After having consulted our raw material suppliers, we can currently state that in the manufacturing process of our cables the conflict minerals Tantalum, Tungsten, Gold and their derivatives are not used.

We can also state that the Tin metal, that is used in some type of cables, does not come from the Democratic Republic of Congo or its adjoining countries.
